ICDSEC 2026

The 2nd International Conference on Data Science and Edge Computing

December 4-6.2026
Ningbo, China

www.icdsec.com/2026/

The 2nd International Conference on Data Science and Edge Computing (ICDSEC2026) invites researchers, practitioners, and industry leaders to submit original research papers, case studies, and visionary perspectives at the intersection of data-driven innovation and edge computing technologies. ICDSEC2026 aims to provide a forum to bring researchers, academics and practitioners together to exchange ideas and discuss the latest research results on various aspects of images, image applications and other related fields. The focus of the conference is to establish an effective platform for institutions and industries to exchange ideas and introduce the work of scientists, engineers, educators and students from all over the world. This conference is a close integration of academia and industry. Our goal is to foster the exchange of knowledge and innovative ideas in Data Science and Edge Computing.

1.Topics

Data Science

- Data Exploration
- Data Modeling and Visualization
- Big Data Applications
- Data Mining
- Data-Driven AI
- Data Privacy and Security
- Data and Information Quality
- Privacy Preserving on Cloud
- Cybersecurity in Relation to Data Science
- Data-driven Value Creation
- Business Forecasting
- Business Intelligence
- Recommender Systems
- Computational Advertising
- Data Management and Quality
- Knowledge Representation and Reasoning
- Improving Data Quality
- Data Strategy and Governance
- Data Visualization
- Data wrangling
- Predictive analysis

Edge Computing

- Edge Connections
- Edge Analytics
- Edge Computing with IoT
- Edge Processing Engine
- Industry Specific Edge
- Edge Application Innovations
- 5G and Edge
- Compute continuum
- Artificial Intelligence in Edge Computing
- Deep Learning in Edge Computing
- Privacy protection in edge computing
- Software/Algorithm optimization for edge computing
- Edge computing infrastructure
- Energy efficient edge computing
- Green cloud computing
- Edge-Cloud coordinated computing
- Wireless optical communications
- Cloud-based sensor network and security issues

6.Committees

Honorary Chair

Prof. Jon Garibaldi	IEEE Fellow, University of Nottingham Ningbo China
Prof. Ujjwal Maulik	IEEE Fellow, Jadavpur University, India
Prof. Rajkumar Buyya	IEEE Fellow, University of Melbourne, Australia
Prof. Carlos A. Coello Coello	IEEE Fellow, Center for Research and Advanced Studies of the Instituto Politécnico Nacional (CINVESTAV-IPN), Mexico

-General Co-Chairs

Prof. Pingzhi Fan	IEEE Fellow, Southwest Jiaotong University, China
Prof. Robertas Damaševičius	Kaunas University of Technology, Lithuania
Prof. Sui Hu	Changsha Normal University, China
Prof. Jianqi Li	Hunan Institite of Science and Technology, China
Asso. Prof. Pushpendu Kar	IEEE Senior Member, University of Nottingham NIngbo China

-Publication Chairs

Prof. Aleksander Byrski	AGH University of Krakow, Poland
Prof. Kitsuchart Pasupa	IEEE Senior Member, King Mongkut's Institute of Technology Ladkrabang, Thailand

-Organizing Committee Chairs

Prof. Dave Towey	IEEE Senior Member, University of Nottingham Ningbo China
Prof. Jungong Pi	Changsha Normal University, China

-International Advisory Chairs

Prof. Andrew W. H. Ip	IEEE Senior Member, University of Saskatchewan, Canada
Prof. Kelvin Wong	IEEE Senior Member, University of Saskatchewan, Canada

-Technical Program Committee Chairs

Prof. Yang Tang	IEEE Fellow, East China University of Science and Technology, China
Prof. Shubhajit Roy Chowdhury	IEEE Senior Member, Indian Institute of Technology Mandi, India
Prof. Anthony Graham Bellotti	University of Nottingham NIngbo China
Prof. Gaofeng Peng	Changsha Normal University, China
Assoc. Prof. Yujie Jin	Changsha Normal University, China
